KNITTING OIL ADDITIVE

CERTIFICATE OF ANALYSIS

Type Ester based oxidation, rust and wear inhibiting additive package.
- For anti-wear knitting oil,

TYPICAL DATA.

COMPOSITION - Combination of esters to suit the purpose.
APPEARANCE - Light Yellow to dark yellow liquid .
ACID VALUE - 3 mg KOH/ gm Max
SAPONIFICATION VALUE - 9 TO 18 mg KOH/gm
S.G. @ 29-5 degree C- to report
Flash POINT- 150 degree C Minimum

APPLICATION - Anti wear knitting oils 1

Speciality Products

Our KOE is excellent anti ware, corrosion protection and oxidation characteristics additive package. Its treatment levels is controlled by final kv @ 40 deg c of a product. Higher the kv at 40 deg c higher is the dosage required.

For example for sn 70 group 2 the dosage can be 8 % level, i.e. 8 litre additive 92 litres SN 70 group 2.

Our koe gives very good scorability that is wash ability. The finished product at particular level should give good wash ability. If you don't get good wash ability at 12.5 % level in that case oil is contaminated not suitable for knitting oil.

For kv of 32 to 40 cst we have to use 12.5 % of knitting oil additive.

This Knitting Oil Additive 12.5 % in a good quality oil can be used to run heavy duty knitting.

Knitting Oil Additive should not be used with any other additive otherwise the performance is not achieved.

This Knitting Oil Additive can be cold blended.

On behalf of [Siddhi Trade Enterprise](#), we are pleased to have the opportunity to work with you and we look forward to establishing a solid, mutually beneficial business relationship.

Please feel free to contact us for further details. Assuring you our best services.
